Gary Lategan:

With 28 years' experience as a rotational moulder and now a consultant to the industry Gary Lategan is internationally recognised as an innovator and leader in the rotational moulding industry.

Having worked with over 150 customers in 34 countries worldwide, Gary has never missed an opportunity to share or gain knowledge of the roto moulding industry and its processes. He developed TempLogger and related tools to help moulders attain their full potential.

As Chairman of ARMSA for the past eight years and a founding member of ARMO, Gary has presented a range of papers and workshops across the globe in an effort to share his passion for the industry.

Specialties:

- TempLogger - Temperature Monitoring and Control
- RotoProfit - Measure, Control, Improve
- RotoCalc - A Calculator for Costing, Dry Flow, Screen Analysis & Hoop Stress
- RotoMould - Design.
- ARMO Dry Flow Funnels - Powder Quality

“Gary is singularly the most infectiously passionate person I have been fortunate enough to meet and work with in the world of Rotational Moulding. His innovative, can-do attitude is truly inspiring and can not fail to raise both the potential, and the standards of anyone who is willing to listen to him with an open mind. While being highly experienced and knowledgeable, Gary is immensely inquisitive and actively uses every opportunity to question, challenge, learn as well as impart knowledge. Gary is enormously generous with his time and expertise and is someone who often spends many a late hour working with those who have a real interest. His personal nature is genuinely magnetic, attracting likeminded people with his positive outlook developing a strong network, which includes people from the shop floor to the boardroom. I therefore delight in the opportunity to recommend Gary to anyone who is in need of a strong speaker, teacher and friend.” March 3, 2010, Tony Mercieca, Technical Manager - Principal Consultant, RotaTech Solutions; he has worked with Gary
